Re: **Grant Importing, et al. v. Amtec International Corp of NY, et al.**

Dear Mr. Stern:

The purpose of this letter is to confirm my telephone call to you of today's date regarding your removal of the above-captioned matter from the Illinois State Court to the Federal Court in the Northern District of Illinois. In that telephone conversation, I indicated to you that I believe that your removal of this action to Federal Court was improper, given that there is no complete diversity between all of the Plaintiffs and the Defendants. I specifically pointed out to you that one of the named Defendants, European Beer Importers, Inc., is an Illinois corporation, and that the allegations against that Corporation were referenced throughout the Complaint, as well as in our multiple prayers for damages. You indicated that you disagreed with my position, and in any event, would not voluntarily remand the case back to State Court.

We will present our Motion for Remand to the Federal Judge assigned to this matter, and seek sanctions against the Defendants as a result of the improper removal.

Very truly yours,

BRUCE M. BOZICH
